SUMMARY

Full Stack Developer & Product Designer with hands-on experience building scalable web applications and intuitive interfaces across modern JavaScript stacks. Experienced in building scalable web applications and crafting intuitive, user-centered interfaces. Skilled at aligning business objectives with user needs to deliver impactful, functional solutions.

EXPERIENCE

Full Stack Developer | AR Forge Tech

Dec 2025 – Aug 2026 • Kathmandu, Nepal

- Promoted from Full Stack Intern to Junior Developer within 3 months based on performance and rapid adaptability.
- Engineered scalable backend microservices using NestJS and PostgreSQL, optimizing data retrieval speeds and API reliability.
- Developed and deployed responsive, interactive user interfaces using Next.js, TypeScript, and Material UI (MUI).
- Collaborated directly with cross-functional teams to handle end-to-end production features, QA testing, and deployment.
- Communicated with business stakeholders to map out feature logic and translate requirements into production code.

UI/UX Design Intern | SOFTECH Foundation Pvt. Ltd.

Aug 2024 – Nov 2024 • Kathmandu, Nepal

- Created wireframes, high-fidelity mockups, and interactive prototypes in Figma for enterprise web applications.
- Translated design systems into clean, semantic frontend code using JavaScript, HTML5, and CSS3.
- Designed brand identity assets, digital banners, and marketing graphics across web platforms.

SELECTED PROJECTS & FREELANCE

Basketboard — Full-Stack Basketball Management Platform

React.js, Node.js, Express, TypeScript, PostgreSQL, Figma

- Designed full application architecture in Figma and built a sports management platform featuring real-time messaging, immediate notifications, a talent hiring hub, and Khalti payment API integration.

The Shangrila Trade Concern — E-Commerce Platform

Next.js, TypeScript, Tailwind CSS, Vercel, Figma

- Designed visual branding from scratch and engineered a custom, production-ready e-commerce platform deployed on Vercel.

Himalayan Sip — Production Client Site

React.js, Next.js, TypeScript, Tailwind CSS, Vercel

- Independently designed and launched a complete digital cafe platform with interactive menus and location guides.
