Passionate computing professional specializing in full-stack development and UI/UX design. Experienced in building scalable web applications and crafting intuitive, user-centered interfaces. Skilled at aligning business objectives with user needs to deliver impactful, functional solutions. Continuously learning and adapting to emerging technologies to drive innovative results, with a long-term goal of leading development teams and designing transformative digital products that create meaningful impact.

Technical Skills

- **Frontend Development:** React.js, Next.js, TypeScript, JavaScript, Material UI (MUI), Tailwind CSS
- **Backend & Frameworks:** Node.js, Nest.js, Express.js
- **Databases & Storage:** PostgreSQL, MySQL
- **Design & Architecture:** Figma, Balsamiq, Wireframing, UI/UX Prototyping, Canva
- **Tools & DevOps:** Git, GitHub, VS Code, Agile/Scrum Development

Professional Experience

FULL STACK DEVELOPER | AR Forge Tech |

December 2025 – Present

- Promoted from Full Stack Intern to Junior Developer within 3 months based on exceptional performance and rapid adaptability.
- Engineered scalable backend microservices using NestJS and PostgreSQL, optimizing data retrieval speeds and API reliability.
- Developed and deployed highly responsive, interactive user interfaces using Next.js, TypeScript, and Material UI (MUI).
- Collaborated directly with cross-functional teams and teammates to handle end-to-end production features, QA testing, and platform deployment.
- Communicated directly with business stakeholders to map out feature logic and translate client constraints into production-ready code blocks.

UI/UX DESIGN INTERN | SOFTECH Foundation PVT. LTD. |

August – November 2024

- Created comprehensive wireframes, high-fidelity mockups, and interactive prototypes in Figma for enterprise web applications.
- Translated approved design systems into clean, semantic frontend code using JavaScript, HTML5, and CSS3.
- Designed brand identity assets, including digital banners and graphics using Figma.

Selected Projects & Freelance Experience

[Basketboard \(Final Year Project\)](#)

Stack: *React.js, Node.js, Express.js, TypeScript, PostgreSQL, Figma*

- Engineered and deployed a comprehensive basketball management platform featuring real-time messaging, immediate system notifications, secure talent hiring hub, and integrated payment API using Khalti.
- Spearheaded the entire layout phase within Figma, translating complex sporting data into an intuitive, ultra-accessible user experience.

[The Shangrila Trade Concern \(Freelance Project\)](#)

Stack: Next.js, TypeScript, Tailwind CSS, Vercel

- Designed the company's entire visual branding from scratch, including custom logo variations and high-fidelity page layouts.
- Handled the complete development lifecycle independently, coding and launching the entire functional e-commerce website with a custom domain on my own.
- Structured the user flow and navigation to make user experience smooth, fast, and easy.

[Himalayan Sip \(Freelance Project\)](#)

Stack: React.js, Next.js, TypeScript, Tailwind CSS, Vercel

- Designed and built a complete, fully functional website for a local cafe independently from scratch.
- Created an interactive digital cafe menu, location guides, and a clean contact layout to improve customer engagement.
- Successfully deployed and hosted the live, production-ready web application on Vercel.

Education

BSc (Hons) Computing

2023 - 2025

London Metropolitan University
Islington College, Kathmandu

Training and Certifications

- [Responsive Web Design](#)
- [Figma Essential Training](#)
- [Learning the JavaScript Language](#)
- [AWS Academy Cloud Foundations](#)
